

MUHAMMAD MOBEEN

MERN Stack Developer

Faisalabad, Pakistan | m.mobeen2003.786@gmail.com | +92 328 0640754
linkedin.com/in/muhammad-mobeen-192196323 | github.com/mobeen9876 | portfolio-yj23.vercel.app

PROFESSIONAL SUMMARY

MERN stack developer with one year of hands-on experience at TechTrack Business Solution (six-month internship followed by a six-month full-time role), plus a 10-month Web & Mobile App Development certification from Saylani Mass Training Programme. Comfortable building production React interfaces from Figma designs, shipping CRUD modules end-to-end, and integrating third-party and AI APIs (Stripe, OpenAI Whisper/GPT, Groq, Gemini) into full-stack MERN applications. Holds a BS in Information Technology from GCUF (2026), with a multi-service AI SaaS platform as final year project.

TECHNICAL SKILLS

Frontend: React 18, Bootstrap 5, Vite, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, MongoDB (incl. MongoDB Atlas), REST API design

Integrations & Tools: Stripe, OpenAI (Whisper & GPT), Groq, Gemini, Pusher, Git/GitHub, Vercel, npm

WORK EXPERIENCE

MERN Stack Developer | TechTrack Business Solution, Faisalabad

Mar 2026 – Present

Company website: techtrack.online

- Build production React 18 / Bootstrap 5 pages from Figma designs using the company's custom component library.
- Developed a Job Management CRUD module for an admin panel by reusing and extending an existing component pattern; later extended the same pattern to Payment History and Support Ticket modules.
- Contributed to a CV-building SaaS product (aicvbuilder.wasimdev.com), fixing navigation, redesigning the pricing section, and rebuilding the contact page ahead of a CodeCanyon resubmission.

Software Engineering Intern | TechTrack Business Solution, Faisalabad

Sep 2025 – Feb 2026 (6 months)

Company website: techtrack.online

- Onboarded onto live MERN codebases and shipped first production-facing UI changes under senior developer guidance.
- Learned Git/GitHub and npm-based team workflows, and built foundational skills in React and component-driven development.

KEY PROJECTS

Multi-Service AI SaaS Platform (Final Year Project, Nov 2025 – Aug 2026) — Node.js, Express, MongoDB, React, Vite, Stripe, Pusher, Groq/Gemini

- Built a full-stack SaaS platform with role-based access control, Stripe payments, real-time features via Pusher, and AI features powered by Groq and Gemini. Live at saa-s-platform-z28j.vercel.app.
- Authored full GCUF-format project documentation and system architecture diagrams; project praised by the evaluation panel at defence.

EDUCATION

BS Information Technology | Government College University, Faisalabad (GCUF)

2022 – 2026

CERTIFICATIONS

Web and Mobile App Development | Saylani Mass Training Programme

Nov 2024 – Aug 2025 (10 months)

- Certificate No. SMIT/2025/WMA/B8/308452, issued by the Education Department of Saylani Welfare International Trust.
